

**Amendments to the Claims**

This listing of claims will replace all prior versions, and listing, of claims in the application.

**LISTING OF CLAIMS:**

1. (Cancelled)
2. (Currently Amended) The airbag apparatus of claim 1 ~~5~~ wherein the handlebar cover includes a cover body and the ~~frangible~~ separable portion comprises a thinned portion of the cover body which is torn open upon airbag deployment.
3. (Currently Amended) The airbag apparatus of claim 1 ~~5~~ wherein the ~~frangible~~ separable portion comprises overlapping ends of material of the handlebar cover.
4. (Currently Amended) The airbag apparatus of claim 3 wherein the handlebar cover comprises a plurality of strips portions of the handlebar cover material with a plurality of pairs of material strips portions extending along the handlebar so that there are a plurality of the overlapping ends portions of cover material.
5. (Currently Amended) ~~The airbag apparatus of claim 1~~  
An airbag apparatus for a motorcycle including a handlebar, the airbag apparatus comprising:

an airbag including at least a portion thereof that is adapted and configured for being mounted to the handlebar;

a handlebar cover that is adapted and configured to extend over the handlebar and the airbag portion; and

a separable portion of the handlebar cover at which the handlebar cover opens upon deployment of the airbag,

wherein the airbag includes another portion adapted and configured for being mounted to a location of the motorcycle other than at the handlebar.

6. (Cancelled)

7. (Currently Amended) ~~The airbag apparatus of claim 6 wherein~~  
An airbag apparatus for a motorcycle including a handlebar, the airbag apparatus comprising:

an airbag including at least a portion thereof that is adapted and configured for being mounted to the handlebar;

a handlebar cover that is adapted and configured to extend over the handlebar and the airbag portion; and

a separable portion of the handlebar cover at which the handlebar cover opens upon deployment of the airbag,

wherein the airbag includes a retainer therefor; and

the airbag includes another portion mounted in the retainer and the handlebar-mounted airbag portion for being mounted to the handlebar is external of the retainer prior to airbag deployment.

8. (Currently Amended) The airbag apparatus of claim 1 5 wherein the airbag portion is folded ~~and~~ for being connected to the handlebar to extend therealong.

9. (Original) The airbag apparatus of claim 8 wherein the folded airbag portion extends between the handlebar and the frangible portion of the handlebar cover.

10. (Original) The airbag apparatus of claim 8 wherein the airbag portion has an accordion configuration as folded prior to deployment.

11. (Currently Amended) A motorcycle comprising:  
a seat for a driver;  
a handlebar forwardly of the seat;  
a cover for the handlebar;  
an airbag for being deployed forwardly of the seat; ~~and~~  
a portion of the airbag mounted to the handlebar;  
another portion of the airbag mounted to a motorcycle location that is  
off of the handlebar; and  
a predetermined portion of the cover that has a predetermined configuration prior to airbag deployment and shifts to a different configuration upon airbag deployment to allow the airbag to deploy and be inflated forwardly of the seat.

12. (Currently Amended) The motorcycle of claim 11 wherein the airbag ~~includes a portion that is~~ mounted between the handlebar and the cover.

13. (Original) The motorcycle of claim 12 wherein the airbag portion and the handlebar include fasteners therebetween for connecting the airbag portion to the handlebar.

14. (Currently Amended) ~~The motorcycle of claim 11~~  
A motorcycle comprising:  
a seat for a driver;  
a handlebar forwardly of the seat;  
a cover for the handlebar;  
an airbag for being deployed forwardly of the seat; and  
a predetermined portion of the cover that has a predetermined  
configuration prior to airbag deployment and shifts to a different configuration upon  
airbag deployment to allow the airbag to deploy and be inflated forwardly of the  
seat,

wherein the airbag includes a retainer therefor generally mounted in an area lower than the handlebar.

15. (Original) The motorcycle of claim 14 wherein the airbag includes an upper portion mounted to the handlebar under the cover therefor external of the retainer, and a lower portion mounted in the retainer.

16. (Currently Amended) The motorcycle of claim 15 wherein the airbag upper portion is accordion folded ~~and the airbag lower portion is roll folded prior to deployment.~~

17. (Currently Amended) The motorcycle of claim 15 wherein the airbag upper portion is folded to extend along the handlebar, and includes

a ~~thin~~ protective fabric for keeping the airbag upper portion folded until airbag deployment.

18. (Currently Amended) The motorcycle of claim 11 wherein the cover portion comprises a ~~frangible~~ separable portion so the cover opens at the ~~frangible~~ separable portion during airbag deployment.

19. (Currently Amended) The motorcycle of claim 18 wherein the ~~frangible~~ separable portion comprises one of a thinned material portion that is thinner than a thick portion of the cover, and overlapping material end portions.

20. (Currently Amended) The motorcycle of claim 18 wherein the frangible portion is configured to extend in one of a linear configuration, and a dotted configuration, ~~and a sheet configuration.~~
